### DESCRIPTION

The AL800 is the perfect solution for pickup truck owners. The AL800 provides ample clearance and reach with one less motor than the competition, meaning fewer buttons and simpler operation.

This convenient lift brings the manual wheelchair, scooter or power chair right to the driver's or passenger's side door. The AL800 Side Loading Lift will easily load virtually any mobility device available into the bed of your pick-up truck and unload it right to the driver or passenger side door. An optional wireless remote control makes the AL800 fully functional from within the cab!
